M.E. Riccioni, C. Spada, A. Tringali,

Nurses coordination: A. Di Gemma

Secretary: F. Belli

Who Should Attend

Pediatric and adult gastroenterologists, nurses with interest in pediatric therapeutic digestive endoscopy and hands-on training activities.

The Workshop

This is a four day long high-level workshop designed primarily for practicing physicians in the fields of pediatric gastroenterology, endoscopy and overall therapeutic pediatric endoscopy who are seeking up-to-date information that can be applied to clinical practice.

This workshop represents a unique opportunity for hands-on experience with endoscopic therapeutic techniques and their clinical application in children.

The local and invited national and international guest faculty represents recognized experts and thought leaders in this special field in pediatric gastroenterology and digestive therapeutic endoscopy.

The workshop offers a mixture of 10 minute light presentations on current topics, review lectures, point-counterpoint presentations on controversial issues, with live procedure transmission from the endoscopic suite to the conference hall.

The live endoscopic procedures are performed by the faculty experts.

At the **European Endoscopic Training Center (EETC), Catholic University School of Medicine, Rome**, there will be personal hands-on endoscopy simulation training stations, for therapeutic procedures using animals models and electronic simulator. Participants will use instruments and accessories under the supervision of faculty experts.

The **Live Sections** will also be broadcast by internet web-based video streaming.

Program

MONDAY September 8th

TUESDAY September 9th

WEDNESDAY September 10th

THURSDAY September 11th

(8 am-1 pm) Bambino Gesù Children's Hospital **Lectures and Live Endoscopy**
