Fellowship Grants

esge.com

Dear Colleagues

Since its launch in the mid-nineties, the **ESGE** Fellowship Grant programme has become an established educational cornerstone. From its initial modest beginnings, in which four basic trainings were provided to young fully trained endoscopists, the programme has developed considerably and it keeps evolving to accommodate the increasing demand and provide this opportunity to a wider group of young endoscopists. As of 2024 we offer one type of grant (former Module I) which allows successful applicants to visit top units to experience the day-to-day life in a centre of excellence as part of the team.

Alongside medical training, another valuable aspect that our grantees often report is that the ties forged frequently form the basis for a new network with like-minded colleagues.

ESGE Fellowship Grants are an exclusive benefit to **ESGE** Individual Members and application is possible at www.esge.com.

ESGE would like to encourage all young endoscopists from Europe and beyond to take advantage of the opportunity to apply for this valuable educational experience.

**European Society of
Gastrointestinal Endoscopy**

ESGE General Information

The **European Society of Gastrointestinal Endoscopy (ESGE)** represents 41 national societies of endoscopy in Europe, the Mediterranean and North Africa. The aims and objectives of the society are to promote endoscopy and good endoscopic practice through international cooperation between endoscopists. The **ESGE Fellowship Grants**, detailed in this brochure, are an important **ESGE** endeavour toward this goal.

ESGE also actively supports the development of successful community of endoscopy services, in order to ensure high quality, safe, accurate, patient-centred and accessible endoscopic care throughout Europe. Through the diligent efforts of a very active guidelines committee, **ESGE** produces recommendations which appear in the society journal, *Endoscopy*.

ESGE individual members are eligible to apply online for **ESGE Fellowship Grants**. Find more information on www.esge.com, also regarding other educational activities and **ESGE Days** congresses.

Requirements & Benefits

OVERVIEW

Fellowship grants provide observational training with experts. During the training experience grantees can learn basic or advanced techniques depending on their level of expertise. A maximum of four weeks training is foreseen. Grants do not contain hands-on training.

REQUIREMENTS
