33rd GEEW

BRUSSELS EXHIBITION CENTER

June 15 – 17, 2015

Gastroenterology and Endotherapy European Workshop
with live demonstrations

First announcement

<http://www.live-endoscopy.com>

This course is endorsed by

European Society of
Gastrointestinal Endoscopy

American Society for
Gastrointestinal Endoscopy

COURSE OBJECTIVES AND DESCRIPTION

Dear Colleague,

It is with great pleasure that we invite you to the 33rd GEEW which is moving on with the established pattern of combining live demonstrations with a direct interaction between the participants, the moderators and the experts performing procedures.

The learning objectives of the course will be :

1. Evaluation of established and most recent endoscopy techniques, assessing their clinical utility in a multidisciplinary setting
2. Description of pre-therapeutic assessment and post-treatment follow up
3. Detailed technical teaching of various procedures
4. Providing scientific appraisal of technologies, evidence-based, with comparison with other approaches
5. Recognition of the role of endoscopy in digestive diseases and its interaction with gastroenterology, surgery, oncology, radiology and transplantation
6. Teaching on prevention and treatment of complications

The intended audience includes gastroenterologists, surgeons, internists and oncologists, nurses and GI assistants, MD in training and medical students, biomedical engineers and industry partners.

The format is based on live cases transmitted from Erasme Hospital, produced by a professional team in collaboration with experienced physicians and dedicated to provide the most comprehensive illustration of the procedures. All over the procedures, information summarizing the most recent publications will be displayed to reinforce the discussion based on scientific evidence.

The cases will be performed by world-renowned experts in collaboration with local physicians and nursing staff. Every procedure will be performed by at least 2 experts working together in order to ensure maximal interaction with the audience. The scientific programme also offers State-of-the-Art lectures, Questions and Answers sessions and medical quizzes. Simultaneous translation will be provided from English into French.

The meeting will take place in the Brussels Exhibition Centre, close to the famous "Atomium". Online registration will be available at www.live-endoscopy.com from January 1st, 2015. You may contact the Course Coordinator (nancy.beauprez@erasme.ulb.ac.be) for any information. CME and UEMS certifications will be requested.

We hope that you will join us for this 33rd GEEW !

Jacques Devière
Course Director

MAIN TOPICS AND PROCEDURES

- Advanced diagnostic imaging in upper and lower gastrointestinal endoscopy
- Capsule enteroscopy / colonoscopy
- Advanced imaging and therapy in inflammatory bowel disease
- Enteroscopy - Balloon and spiral assisted
- Endocytoscopy, confocal endoscopy
- Mucosal resection and submucosal dissection
- Latest technologies of hemostasis and of bleeding ulcers and varices
- EUS, FNA, contrast EUS
- Dilation of gastrointestinal strictures and stenting
- Zenker's diverticulotomy
- Peroral endoscopic myotomy for achalasia
- Endoluminal transoral surgery for morbid obesity
- Therapeutic ERCP
- Extracorporeal shock wave lithotripsy
- Therapeutic EUS – Transmural anastomoses – Pseudocysts drainage and necrosectomy
- Treatment of surgical complications (stenoses, fistulae, leak)
- Barrett's ablation
- Percutaneous gastrostomy and jejunostomy
- Transjugular liver biopsies, TIPS
- Percutaneous transhepatic cholangiographies

On-line registration available from January 1st, 2015
Early registration fee deadline : April 22, 2015
Language : English with simultaneous translation into French

33rd GEEW

GASTROENTEROLOGY AND ENDOTHERAPY EUROPEAN WORKSHOP

Brussels Exhibition Centre - Monday, June 15, to Wednesday, June 17, 2015

(Kindly complete in capitals)

I am interested in the 33rd GEEW and I would like to receive, when available, the last announcement :

Prof. / Dr. / Mr. / Mrs

Family name : _____ First name : _____

Address : Institution _____

Street _____

Zip code and city _____ Country : _____

Day phone : _____ Day fax : _____

E-mail : _____

To be sent to :

Coordinator of the Workshop
Mrs Nancy BEAUPREZ
