June 17–19, 2013
Brussels, Belgium
Information: Ms N. Beuprez
nancy.beuprez@erasme.ulb.ac.be

Gastroenterology and Endotherapy Workshop is a 3 days meeting focusing on endoscopic approach to digestive diseases and their integration in the multimodal management of digestive diseases. It relies on State of the Art lectures and live video demonstrations performed at Erasme Hospital by local physicians in collaboration with international renowned experts. The major goals of the event are

- ▶ To clearly describe the pre-therapeutic planning and the post-procedural follow-up in digestive therapeutic endoscopy.
- ▶ To integrate endoscopic therapy into the multidisciplinary management of the patient.
- ▶ To focus on safety and modalities to prevent complications.
- ▶ To teach technical aspects and tricks in advanced diagnostic and therapeutic endoscopy.
- ▶ To put all these features in line with the most recent evidence based medicine

ESGE Individual members are encouraged to take advantage of the 20% registration fee reduction by registering before April 17th, 2013.
