ESGE grants

Don't miss ESGE fellowship grants 2014

Every year ESGE offers a total of fifteen fellowship grants to young gastroenterologists from around the globe. Training takes place in sixteen official ESGE host units, centres which are renowned for their excellence and tutorial skills.

Grant winners report enthusiastically on the improvement of their endoscopic skills and contribution to their hospital. We look forward to receiving applications for the fellowship grants 2014!

For more information and online application, please visit www.esge.com

Application deadline:

July 1, 2014

ESGE research grants 2014

ESGE Research grant

ESGE offers up to two grants of 10000€ each per year to original research projects in gastroenterology.

Preference will be given to multicentre projects presenting original ideas by well-organized teams with a reasonable budget.

For more information and online application, visit www.esge.com

Application deadline:

August 15, 2014

ESGE Given Imaging Research grant

The Given Imaging research grant supports innovative, original research in gastroenterology with substantial involvement of capsule endoscopy.

One grant of 8000€ per year is awarded to ESGE individual members.

For more information and online application, please visit www.esge.com

Application deadline:

August 15, 2014

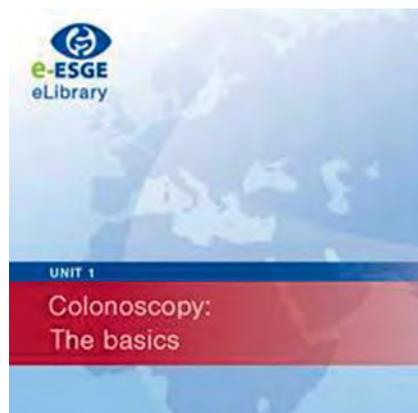

ESGE guideline

Advanced imaging for detection and differentiation of colorectal neoplasia: European Society of Gastrointestinal Endoscopy (ESGE) guideline

Please read page 435–449 in this issue of *Endoscopy*

Free access at www.esge.com

New ESGE eLibrary colonoscopy DVD

We are happy to announce that the latest ESGE eLibrary DVD on colonoscopy is now available to ESGE individual members. Colonoscopy is one of the most common endoscopic procedures worldwide. In this video the very basics of colonoscopy are described: the introduction of the endoscope into the cecum. Detailed descriptions of other aspects, such as bowel preparation, sedation, colonic inspection, quality-assessment, therapeutic procedures and advanced endoscopic imaging techniques will be shown in future teaching DVDs.

ESGE would like to thank Evelien Dekker the topic editor and her assistant Yark Hazewinkel, for their dedication to this extremely time consuming and demanding project.

ESGE individual members are warmly invited to order this DVD on ESGE website (restricted area for members).

Upcoming events

Quality in Endoscopy symposium: GI Bleeding

November 28–29, 2014

Berlin, Germany

Important deadlines:

Abstract submission deadline:

August 31, 2014

Case submission deadline:

August 31, 2014

Early registration fee deadline:

September 21, 2014

Online registration deadline:

November 23, 2014

Quality in Endoscopy symposium: Colonoscopy & colonic neoplasms

April 17–18, 2015

Prague, Czech Republic

Save the date!

More information will be available soon.

IMAGE 2014 – International Management Advanced Gastroenterology & Endoscopy

June 19 – 21, 2014
Milan, Italy
www.imageliveendoscopy.com

32th GEEW

June 23 – 25, 2014
Brussels, Belgium

GEEW focuses on endoscopic approach to digestive diseases and its integration in the multimodal management. It relies on State of the Art lectures and live video demonstrations performed at Erasme Hospital by local physicians in collaboration with international renowned experts.

During the procedures, a panel of experts answers the questions of the audience and comments on the procedures, their indications, the way to prevent complications and the pre- and post therapeutic work-up.

It also includes “Questions and Answers” sessions and lectures entitled “Tips and Tricks” which are focused on some difficult aspects of therapeutic endoscopy.

An up-to-date literature review is commented and discussed throughout the meeting in relation with the procedures.

The major goals of the event are:

- ▶ To clearly describe the pre-therapeutic planning and the post-procedural follow-up in digestive therapeutic endoscopy.
- ▶ To integrate the endoscopic therapy into the multidisciplinary management of the patient.
- ▶ To focus on safety and modalities to prevent complications.
- ▶ To teach the technical aspects and tricks in advanced diagnostic and therapeutic endoscopy.
- ▶ To put all these features in line with the most recent evidence based medicine
