

ESGE News and Upcoming Events

March 2018

What's new at ESGE?

Introducing the EYE (ESGE Young Endoscopists) working group!

The EYE working group is the brainchild of Marianna Arvanitakis and Mário Dinis-Ribeiro. This initiative encourages the involvement of young endoscopists in the various committees and working groups within ESGE.

There was a great response to the call for applications to be involved in this group. In total, 63 applications were received, from which 12 (from 8 countries) candidates were chosen. Members were selected on the basis of their experience as well as their vision of how the EYE group could advance trainee and early-career physician representation and opportunities with ESGE.

Following on from this meeting, ideas about restructuring the ESGE grants system, the development of a trainee focused session during ESGE Days 2018 and the establishment of new networking facilities have been put into motion. Members of the EYE group have also been co-opted into existing ESGE committees such as the research, education and membership committees.

At the moment, the main focus of the EYE group activities has been directed towards the development a variety of sessions to be incorporated into the ESGE Days 2018 programme. These activities have been specifically developed with trainees and early career physicians in mind. In their very own dedicated area called the „EYE Zone”, ESGE Days 2018 participants will be able to attend and participate in a variety of interactive sessions. The EYE Zone also features a coffee corner, and all ESGE Days 2018 delegates are warmly invited to stop by and relax!

For full details regarding the EYE Zone programme, please visit the ESGE Days website www.esgedays.org

ESGE Days 2018

April 19 – 21, 2018
Budapest, Hungary

ESGE events calendar

When will we see you again?
