

ESGE news and upcoming events

April 2021

ESGE Days 2021 Going virtual. Staying real.

Thank you!

ESGE would like to extend a huge thank you to the many participants from all over the world who connected, debated and were updated on all the latest science on endoscopy at ESGE Days 2021.

As we look back on our annual congress, we are grateful to see such incredible engagement during high quality sessions as well as discussions with the most acclaimed international experts in GI endoscopy.

Did you miss any of the sessions? Would you like to see a recap of ESGE Days 2021? Connect to the platform during the on-demand period, until the end of May 2021, to access the full event.

New modules available on myESGEtutor!

The ESGE eLearning Group is very pleased to invite you to explore their new myESGEtutor modules:

Module 5: Diagnosis and management of epithelial precancerous conditions and lesions in the stomach

Module 6: Small-bowel capsule endoscopy and device-assisted enteroscopy for diagnosis and treatment of small bowel disorders.

When accessing the modules, a pre-training self-assessment will allow you to check your level of knowledge, and a variety of endoscopic images and videos from real clinical cases will provide answers to questions and dilemmas rising up in everyday clinical practice.

Dr Paraskevas Gkolfakis is part of the team behind the new modules “I hope ESGE members will grab the opportunity to log in, enjoy and further develop their theoretical endoscopic skills. Also, for those thinking of applying for an ESGE fellowship grant, remember to download your certificate of attendance because completing relevant myESGEtutor modules is considered an additional point for fellowship grant applicants!”

Dr Paraskevas
Gkolfakis

To access myESGEtutor, log into your ESGE membership page and register for access. You will then receive a personalized log in to myESGEtutor.

New ESGE Guideline

ESGE Guideline

Endoscopic management of ampullary tumors: European Society of Gastrointestinal Endoscopy (ESGE) Guideline

Geoffroy Vanbiervliet, Marin Strijker, Marianna Arvanitakis et al.

Please read page 429–448 in this issue of *Endoscopy*.

Free access at www.esge.com

An exhaustive review and analysis of the literature was undertaken by experts to develop this guideline, the first in the field of endoscopic management of ampullary tumors. A diagnostic and therapeutic algorithm is proposed that summarizes the various statements. A companion paper will provide guidance on superficial non-ampullary tumors of the duodenum.

Apply for a 2021 ESGE Endoscopy fellowship grant

Application deadline June 1, 2021.

Fellowship grants are offered to fully trained endoscopists wishing to undertake further training in highly specialised endoscopic techniques at officially recognised ESGE training centres.

Applicants must be ESGE individual or dual members and below the age of 40 as of January 1, 2021 in order to apply.

Visit www.esge.com and apply now!

ESGE Quality Check (QIC) APP

- Would you like to assess the quality of your endoscopy unit?
- Do you want to know where you can still improve?

With the help of the ESGE Quality Check (QIC) APP you can measure quality in your endoscopy unit according to the ESGE Quality Improvement Committee's recommendations.

Request access for 4 months (free for ESGE members):
www.esge.com/assess-quality-in-your-endoscopy-unit/

Or contact us at: quality@esge.com

When will we see you again?

Attend the following ESGE endorsed events and take advantage of the registration fee reduction as an ESGE individual member.
