

# LIBANO LIVE

2022

HYBRID MEETING

Frontiers of interventional  
Endoscopy

SEPTEMBER 30 - OCTOBER 01, 2022

▶ **LIBANO LIVE 2022**

## Welcome to our 5th Libano Live Endoscopy course!

It is our great pleasure to invite you to the Libano live 2022 that will be held on September 30 and October 1, 2022. Over 2 busy days we will be demonstrating, discussing, and debating all the aspects of clinical endoscopic practice. Started in 2018 and held every year on September, this meeting has become established as one of the largest MEA Workshops in its field, gathering around 200-300 participants coming from 15 to 20 different countries worldwide.

Planning a congress during the ongoing pandemic is challenging. It is our aim to hold an on-site congress that offers opportunities for face to-face meetings with colleagues, business partners and friends old and new. However, our symposium will also be broadcast online for those who cannot attend the event in Lebanon.

The meeting is designed for endoscopists and gastroenterologists but also for fellows as well as for nurses and GI assistants, combining live demonstrations with a direct interaction between the participants, the moderators and the experts performing procedures. Live transmission will be broadcast live from 3 endoscopic suites located at Najdeh

Hospital and each procedure will be performed by international expert physicians selected for their outstanding teaching capabilities in collaboration with Lebanese expert physicians. We already thank our international experts who accepted to travel to Lebanon despite the COVID19 pandemic to perform the procedures.

The overall goal of this course is to provide information about current technology and to enhance knowledge in gastroenterology and endotherapy. Moreover, new techniques and new accessories will be demonstrated and discussed with the audience during Q&A.

As always we expect the meeting to be informal, challenging and fun!
